Course Description:

Course Description This course is designed for security assistance managers representing international purchaser and recipient countries, international organizations, and international employees of U.S. security assistance organizations (SAOs) overseas. The course is tailored to present the significant aspects of the foreign military sales (FMS) program and the management concerns of purchaser/recipient countries. In addition to the twelve day resident SAM-I-Logistics course, a comparable course may be provided overseas through the use of a DISAM Mobile Education Team (MET). See the MET section of this catalog, for SAM MET data. A variety of educational techniques are employed. To reinforce the lectures and reading material, a number of practical exercises are woven into the curriculum.

Prerequisites:

None

Notes:

None

Int'l Notes:

None
